PROFILE

Front-End Developer passionate about building clean, responsive, and user-friendly web applications. Experienced in developing scalable interfaces, integrating APIs, and deploying modern web applications. Strong focus on maintainable code, usability, and performance optimization.

CORE PROJECT EXPERIENCE

E-Transver – Full-Stack E-Commerce Platform (Internship Project)

Role: Front-End Developer

<https://e-transver.vercel.app/>

- Worked in a cross-functional team to build a production-ready e-commerce platform.
- Built authentication pages, vendor settings, and admin dashboard features.
- Developed reusable responsive components using React and Tailwind CSS.
- Integrated REST APIs using Axios and collaborated with backend developers.
- Fixed UI bugs and ensured consistency across the application.

FREELANCING PROJECTS

BillSplitSafe – Expense Splitting Web App

<https://bill-split-safe.vercel.app/>

- Built a web application to help groups split shared expenses accurately.
- Implemented automatic calculation logic to determine how much each participant owes.
- Developed using Next.js and TypeScript with reusable components.
- Ensured responsive design and strong type safety for maintainable code.

Admin Dashboard – Front-End Interface Project

<https://dashboard-murex-eta-54.vercel.app/>

- Built a SaaS-style admin dashboard UI with reusable components and tables.

- Focused on clean layout structure, responsiveness, and usability.

Cinema Hub – Movie Discovery App (TMDB API)

<https://cinema-hub-tau.vercel.app/>

- Built a movie discovery app using TMDB API with search and browsing functionality.
- Implemented dynamic movie detail pages and handled loading/error states.

TECHNICAL SKILLS

Front-End: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS APIs &
Tools: REST APIs, Axios, Git, GitHub Deployment: Vercel

EDUCATION

Web Development - 2024, Aptech Computer Education
